Dr. Alper İlki is a professor of structural engineering at Istanbul Technical University. His research interests include the seismic behavior of reinforced concrete and masonry structures, as well as seismic retrofitting with FRPs. He is the editor, associate editor or editorial board member of Turkish Journal of Civil Engineering, ASCE Journal of Structural Engineering, ASCE Journal of Composites for Construction and others. He co-edited three international books published by Springer titled Seismic Risk Assessment and Retrofitting, Seismic Evaluation and Rehabilitation of Structures, and Advances in Assessment and Modeling of Earthquake Loss. Dr. İlki is the chairman of Turkish Earthquake Foundation, a member of executive board of Turkish Catastrophe Insurance Pool, an elected member of the IIFC Council, and life time honorary member of fib.
