Professor Dashnor Hoxha is Professor in Civil Engineering at the Polytechnic School of Orléans and a member of the Laboratory of Mechanics “Gabriel Lamé” (EA 7494), University of Orléans. Research focuses on civil engineering, geomechanics, porous media, multiphysics coupling, and numerical methods in engineering.

Supervisor of 26 PhD theses and advisor to several postdoctoral researchers. Involved in national and international research programs such as TEMPUS, Erasmus+, ANR, and Interreg. Coordinator of multiple industrial collaborations with institutions including TOTAL and ANDRA.

Member of editorial boards for Sustainability and Periodica Polytechnica Civil Engineering. Editor and co-editor of several scientific publications. Active participant in scientific networks including INTERPORE, CFMR, and GdR MEGE. Member of the scientific committee of ICPAM.

Scientific output includes over 200 contributions in journals, conference proceedings, book chapters, and research reports, with continued engagement in academic and applied research activities.
